

THE ARK OF SAFETY

Last Days will be as the days of Noah Luke 17:26, 27; 1 Jn. 4:4.

- 1. Noah was the only one with the pattern for the Ark, and it came from God. He had to build it according to all that God commanded.**
- 2. There was a place in the Ark for the whole family.**
- 3. The Ark was where God preserved the image of the family.**
- 4. The Ark was a place of safety and protection for the family.**
- 5. The family was kept from the judgment God said would come.**
- 6. The Ark was a family project; had to be built/work was involved.**
 - the family was kept because all were involved building what God said should be built in their time (Heb. 11:7).**
- 7. As soon as the flood subsided, the first thing Noah built was an altar (Gen. 8:20), not a house. If it hadn't been for the Lord and the Ark, he wouldn't have had a family or a house.**
