

# BUILDING A STRONG AND ACTIVE FAITH

1. All redemption was by grace, not sovereignty. God's throne, His seat of authority, is grace not sovereignty.
  - Grace is God initiating a move toward man.
2. Jesus restored man's dominion, authority, and right to rule in life.
3. God has magnified His Word above His Name and watches over it to perform it.
4. God cannot violate His character, nature, and integrity.
5. There are many things that are not God's will that happen to us, and many things that are God's will that never happen.
